EXPERIENCE

Openturf Technologies

Mar. 2024 – Sep. 2024

Software Engineer Intern [DEMO] [LINK]

Remote

- Designed and developed a full stack web-based Pokémon card game, integrating the PokeAPI to deliver accurate Pokémon data and enhance gameplay dynamics.
- Implemented secure user authentication and managed user sessions for robust access control.
- Transitioned Application to a serverless architecture for hosting in the production environment
- Technologies: React.js, Framer Motion, Node.js, Express.js, PostgreSQL, Supabase, Sequelize, Bcrypt, Winston & Morgan.

Openpedia

Aug. 2024

Open Source Contributor [LINK]

Remote

- Contributed to Openpedia during CSSOC, improving functionality and user experience using HTML, CSS, Javascript.

EDUCATION

Panimalar Engineering College

Jul. 2022 – Present

Bachelor of Technology in Information Technology CGPA: 8.025/10 (5th Semester)

Chennai, India

PROJECTS

Reader's Viewpoint

[DEMO] [LINK]

- Developed a minimalistic ePub reader with customizable features like text/background color adjustments, user-selected background images, and YouTube playback for a personalized reading experience.
- Provided a user-customizable environment to create the perfect theme before diving into reading a book.
- Technologies: React.js, HTML, CSS, JavaScript.

Citizen & Constitution

[DEMO] [LINK]

- Developed a gamified learning platform to address low engagement in traditional learning, by designing the solution idea and implementing the frontend.
- Created a RenPy-based VN, integrating interactive storytelling to enhance user retention and drive learning progression.
- Technologies: Python, Ren'Py, React.js.

YouTube Scraper

[DEMO] [LINK]

- Developed a full-stack YouTube analytics dashboard using Flask and React, integrating YouTube Data API v3 with in-memory caching (`functools.lru_cache`) for optimized API calls.
- Technologies: Flask, React.js, YouTube Data API, Tailwind CSS, Axios, Google API Client.

ACE

[DEMO] [LINK]

- Developed a gesture-based control system using Computer Vision to enable interaction with a 2D Flappy Bird game.
- Delivered an alternate input which enhances inclusivity for individuals with disabilities and introduces innovative game mechanics without reliance on additional hardware.
- Technologies: Python, OpenCV, Unity.

SKILLS

Languages/SQL: JavaScript, Python, Java, Rust, C, C# (Unity), Bash/Shell, HTML/CSS, Supabase, PostgreSQL.

Frameworks/Technologies: React.js, Node.js, Express.js, Axios, Sequelize, Winston & Morgan, Tailwindcss, Framer Motion, Lenis, Three.js, Pygame, Ren'Py, OpenCV, Pandas, Numpy, Matplotlib, Scikit-learn, Selenium, Linux, NixOS.

Tools: Git, Docker, Vim, Postman, Notion, Canva, Ollama, VSCode, Unity, Blender, DaVinci Resolve.

ACHIEVEMENTS

International Finalist in IEEE YESIST12 (2023) | TN Police Hackathon Finalist (2024) | 600+/19,500 in IEEEExtreme 18.0
